

Explanations for the order

Experience a safer and more open world

Step 1

Select preferred model

The model number makes the **first 5 digits** of the order matrix → *please mark with a cross on the next page*

Description	Emergency button	On impact	Locking	t1/t2		IO CAN, TSB (optional)	Fire protection
Model N3722 ePED® panic touch bar, controlled with display terminal 		✓	✓	✓	✓	✓	✓
Model N3702 ePED® panic touch bar, controlled 	external		✓	✓	✓	✓	✓
Model N3660 ePED® panic touch bar, <u>not</u> controlled with display terminal 			external escape door locking	✓	✓	✓	✓

Step 2.1

Measure the mounting distance BA

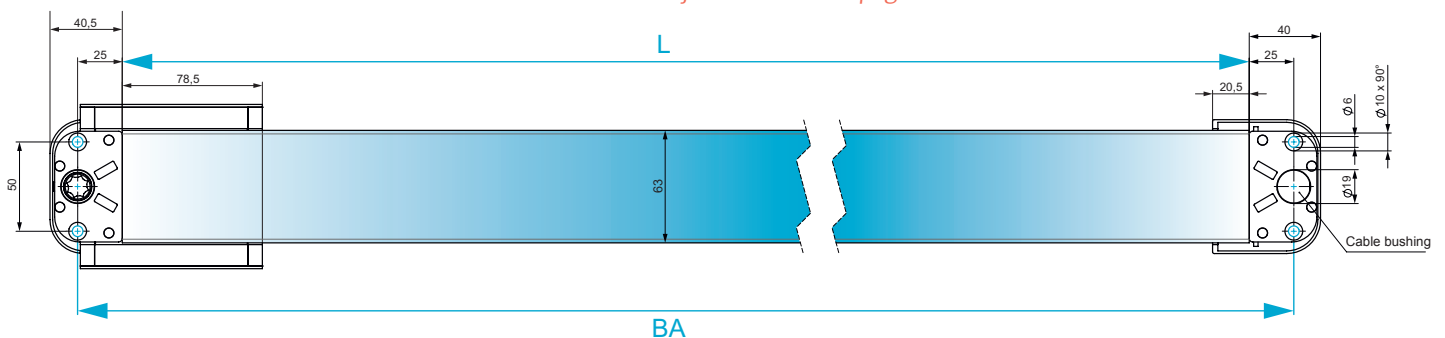

BA = according to the drawing

Step 2.2

Measure the length L

L = BA - 50 mm. This value makes the **digits 8-11** in the order matrix.

→ *Please fill in on the next page.*

Please note:

The L measure **must be precise!** (Max. tolerance +/- 1 mm)
 We produce your touch bar individually according to this measure.

Step 3

Select language

The language code makes **digit 12-13** in the order matrix. → *Please fill in on the next page.*
