

### Product description

- The smoke detector is used to detect smouldering and fully developed fires with smoke emission and control arrestor systems on doors and gates.
- Alarm threshold monitoring in the ORS 142 ensures that the level of contamination is checked permanently and the alarm threshold is adjusted automatically, thus guaranteeing continuous safe, reliable operation.

### Scope of delivery

- 1 smoke detector

### Technical data

Color	white, similar to RAL9010
Class of protection	IP42
Operating temperature range	-20 °C to +60 °C

Article number	DCRZ101----9010
EAN-Number	4042203425255
