

# SCALA net license extension to include 1 additional system user

ASSA ABLOY

## Product description

With the SCALA net license extension additional system user, the SCALA net software can be managed by one additional person.

The rights held by a system user can be defined in the SCALA net software. Both the write and read rights are assigned by the administrator for the relevant system user. The user then only receives the information he or she needs to use SCALA net.
