

Product description

For connection to an escape door control module or door monitoring module to provide additional signalling for acoustic and optical alarms.

Power supplied via SYSCON 4 and system activation via the universal output on the escape door control terminal.

Scope of delivery

- 1 alarm signal module
- 1 frame
- 1 operating manual

Note

- Jung LS990 - stainless steel

Technical data

Input voltage	12-24 V DC
Stand-by current power input	20 mA
LED display	Yellow
Actuation input (optocoupler)	Max. 30 V DC 7 mA
Sound pressure at 12 V DC and 1m distance	About 80 dB A
Sound pressure at 24 V DC and 1m distance	About 92 dB A
SYSCON 4 connections	2
