

### Product description

Holding magnet in compact design which provides a concealed securing system for doors along escape routes. Dimensionally stable aluminium housing for flush mounting incl. counterplate. A monitoring contact, such as Model 10365-6, is not included in the package supplied.

### Technical data

Input operating voltage	12 V DC / 24 V DC
Current consumption 12 V DC	500 mA
Current consumption 24 V DC	250 mA
Continuous duty	100 % ED
Holding power	2500 N
Version	Einbaumontage
Hall sensor	No
Class of protection	IP 67
Connection cable length	4 m
Length	301 mm
Width	28 mm
Height	35 mm
Counterplate length	301 mm
Counterplate width	20 mm
Counterplate length	35 mm
Color	Natural, anodised
