

Product description

Bolt switch contact for lock monitoring with adjustable switching point and two extensions for the actuating lever.

Technical data

Max. contact rating	3 W
Input operating voltage	max. 30 VDC
Max. switching current	max. 0.3 A; observe the max. contact loading capacity!
Contact type	Change-over contact
VdS class	Class C
Class of protection	IP 50
Connection	Solder connection
Operating temperature range	-5 °C to +70 °C

Article number	10308-----10
----------------	--------------
