

Product description

Electric strikes for fire doors with an exceptionally sturdy design.

Model with basic equipment.

Can also be used as a security electric strike.

Overview of Advantages

- Reliable unlocking under preload
- Horizontal fitting permitted
- Sturdy design

Scope of delivery

- 1 piece electric strike

Note

- Please refer to the information provided from the Deutsches Institut für Bautechnik (German Institute for Structural Engineering).
- Suitable for direct current operation only

Technical data

Handing	Right-hand
potential	12 V DC eE
Fail-locked	Yes
Rated operating voltage tolerance range	± 1 V
Rated resistance	42 Ohm
Current consumption DC (stabilised)	285 mA
Break-in resistance	15000 N
Height	134 mm
Width	23 mm
Depth	39 mm
Max. latch preload AC	250 N
Operating temperature range	-15 °C to +40 °C
Max. latch preload DC (stabilised)	250 N
Installation position	Vertical and horizontal
Material housing	Steel precision-casting
Latch material	Steel
Certified in compliance with	DIN EN 14846:2008
DIN-direction	Right-hand
