

Product description

All transformer rectifiers supply an AC output and a DC output (50% ripple). They thus provide an optimum basis for power supply to electric strikes.

Scope of delivery

- 1 piece rectifier unit/ transformer

Note

- Supply voltage 12 V AC/DC

Technical data

Rated current	1 A max., 1.5 A for 10 s
Rated current consumption	1 A max., 1.5 A for 10 s
Mounting method	Surface-mounted / top hat rail
Overload protection	thermal circuit breaker
Dimension	106 x 70 x 73 (W x H x D)
Operating temperature range	0 °C to +40 °C
Class of protection	IP 20
Protection rating	II/Insulation protection
Sub-units	6

Article number	1001-12-1----00
EAN-Number	4042203164291
