

Product description

The transformer rectifiers can supply an AC output and a DC output (50 % ripple), thus providing an optimum basis for power supply to electric strikes.

Technical data

Rated current	1 A max., 1.5 A for 10 s
Mounting method	Surface-mounted / top hat rail
Overload protection	thermal circuit breaker
Dimension	106 x 70 x 73 (W x H x D)
Operating temperature range	0 °C to +40 °C
Class of protection	IP 20
Protection rating	II/Insulation protection

Variants that can be ordered

Order number	Description
1001-12-1----00	12 V AC and DC; 1 A; surface-mounted/top hat rail
1001-24-1----00	24 V AC and DC; 1 A; surface-mounted/ top hat rail
