

Product description

Model with reversible design. The advantage lies in the fact that the connection also points upwards in the DIN right-hand version. This means the cable conduit is not near the deadbolt. Door strike can be adjusted in the striking plate, thus making installation work a great deal easier.

Overview of Advantages

- The universal strike in a solid design
- The minimum gap between the strike latch and casing lower surface enables DL and DR designs to be combined with locks which contain a minimum latch deadbolt clearance.
- For striking plates with minimum latch deadbolt clearance
- Suitable for all common striking plates
- Can be combined with striking plates with latch bolt guide (standard) without FaFix®

Scope of delivery

- 1 piece electric strike

Technical data

Handing	Left-hand
potential	24 V AC/DC
Adjustable electric strike (F, Fix®)	Yes
Fail-locked	Yes
Break-in resistance	6500 N
Height	104 mm
Width	20 mm
Depth	28 mm
Operating temperature range	-15 °C to +40 °C
Installation position	Vertical
Material housing	Zinc die-cast
Latch material	Zinc die-cast
