

### Product description

Model with reversible design. The advantage lies in the fact that the connection also points upwards in the DIN-right version. This means the cable conduit is not near the deadbolt.

### Overview of Advantages

- The minimum gap between the strike latch and casing lower surface enables DL and DR designs to be combined with locks which contain a minimum latch deadbolt clearance.
- For striking plates with minimum latch deadbolt clearance
- Suitable for all common striking plates
- Can be combined with striking plates with latch bolt guide (standard) without FaFix®

### Technical data

Fail-unlocked	Yes
Break-in resistance	5500 N
Height	104 mm
Width	20 mm
Depth	28 mm
Operating temperature range	-15 °C to +40 °C
Material housing	Zinc die-cast
Latch material	Zinc die-cast

### Variants that can be ordered

Order number	Description
34S-----E94	Without striking plate, 12 V DC
34S-----E95	Without striking plate, 12 V DC
34S-----F94	Without striking plate, 24 V DC
34S-----F95	Without striking plate, 24 V DC
