

### Product description

Model with reversible design. The advantage lies in the fact that the connection also points upwards in the DIN-right version. This means the cable conduit is not near the deadbolt.

### Overview of Advantages

- The minimum gap between the strike latch and casing lower surface enables DL and DR designs to be combined with locks which contain a minimum latch deadbolt clearance.
- For striking plates with minimum latch deadbolt clearance
- Suitable for all common striking plates
- Can be combined with striking plates with latch bolt guide (standard) without FaFix®

### Scope of delivery

- 1 piece electric strike

### Technical data

Handing	Right-hand
potential	24 V DC
Fail-unlocked	Yes
Rated operating voltage tolerance range	± 2 V
Rated resistance	230 Ohm
Current consumption DC (50% Residual ripple)	100 mA
Current consumption DC (stabilised)	105 mA
Break-in resistance	5500 N
Height	104 mm
Width	20 mm
Max. keeper pre-load DC (50% residual ripple)	10 N
Depth	28 mm
Max. latch preload DC (stabilised)	10 N
Operating temperature range	-15 °C to +40 °C
Material housing	Zinc die-cast
Latch material	Zinc die-cast
